Willow class have enjoyed the summer weather and having the opportunity to use the outdoors as much as they can with their everyday learning.

Willow Class have settled back into their learning routines after the half term break.

In English we have started reading *The Storm Whale* by Benji Davis. The children have been introduced to the main character Noi and they have written some diary entries from Noi's point of view.

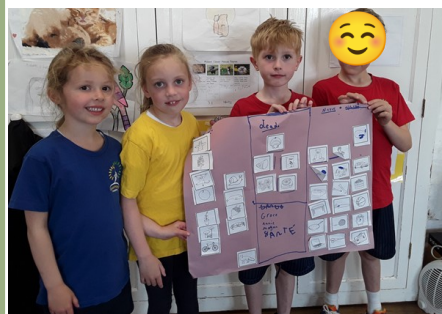

In Maths the children are working hard to meet their learning targets. See the super work on these whiteboards!

In Science we are talking about life cycles. These groups of children started the topic by sorting living, dead and never been alive.

In PE this half term we are working on our athletics skills and improving our fitness levels. Just see how energetic the Willow children are!

Menu will be: Week 1
