The KS1 children have had a fantastic start to the year! The Year 1 children have settled into their new routines and the older children look and feel much more grown up!

We are lucky to be the first class to have a turn at forest school. In the first week we made necklaces out of natural found things and had fun exploring the forest school area.

In Science we have been learning about 'Animals including humans' with a particular focus on pets. We had our first pet visitors on Wednesday, gerbils Ruby and Bella and a stick insect. We are learning what

animals need to stay healthy and happy.

We have also been out in the school garden for a minibeast hunt. We looked at the different microhabitats within the school grounds and thought about the living conditions within the habitat. We were excited to find ladybird larvae!

In History we are learning about schools in the past. Did you know that our school was built in 1869? We will be looking at the old school logbooks and hunting around the school building to look for clues about the past. We will also be meeting and interviewing some old pupils in the forthcoming weeks.
