6th Dec

Flu Vaccination proposed date

12th Dec

Nativity
9.30 & 2pm

13th Dec

Christmas Dinner

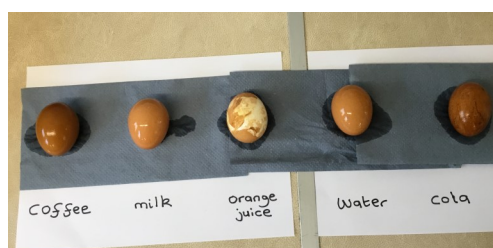

18th Dec

Panto Trip
(Whole school)

The children have enjoyed dressing up in aid of Children In Need today and we thank you for your kind donations. Please see our social media sites for photos!

In Science, we carried out an experiment to see if sugary drinks cause tooth decay. We used a hard boiled egg as a model of a tooth. The eggshell represented the enamel on our teeth. We placed hard boiled eggs in cola, milk, water, coffee and orange juice. Almost straight away the shell of the egg in the orange juice started to bubble and crack. Our investigation showed us that though it is good for our health, because of its high acid levels, orange juice is not good for our teeth!

In Design Technology we have been practicing our sewing in preparation for making a cushion. We used binca to practice our running stitch and cross stitch.

In Music we are exploring and developing our playing skills using the glockenspiel. So far we have learnt the notes D and E.

In PE we have been practising our Tag Rugby skills and are learning a new form of martial arts mini muay thai, which is helping us to improve our fitness and learn basic boxing skills.

This week the

Special Awards go to:

Acorn Class: Amber

Willow Class: Ziggy

Oak Class: Leo

Menu will be: Week 2
